Dear Grote:

Thought I ought to get around to answering your letter.

First of all, let me say that we are looking forward to your visit to California and hope you will let us know when your plane will arrive so we can pick you up at the airport.

I'm glad you enjoyed your visit with Floyd Lyons. He is quite a collector, especially of old light bulbs. Haven't seen any I.F. strips lately. The old stuff is fast disappearing. I pick up an old receiver now and then but nothing exciting.

Howard Hein sends his best and is also looking forward to seeing you again. He hasn't changed much, although he does not get around to visiting the local dumps anymore. In fact he seldom ventures far from home. Has some phobia about falling asleep at the wheel or something like that.

Hope this finds you feeling OK and hope to see you soon.

73.

Paul
