

6/6/83

Mr. J. A. Steff-Langston
Royal Astronomical Society
Burlington House
London W1V 0NL
England

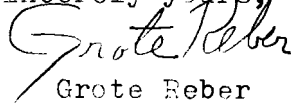

Dear Mr. Steff-Langston:

Your letter of 20/5/83
with enclosures arrived promptly on 1/6/83.
I am most appreciative and very pleased. The
medal is really massive! The cheque will be
useful in carrying forward my current researches.

Please send to me some literature giving
details about who Jackson-Gwilt was, what he
did, when he lived, for what purpose he setup
the medal, etc. A list of past recipients
with dates would be most welcome. I will then
fold this information into box with medal. It
will tell an interesting story to accompany the
the medal.

Again, thanks very much. I am,

Sincerely yours,

Grote Reber
