

29th October 1962

Dr. Sturla Einarsson  
Department of Astronomy  
University of California  
Berkeley 4, California, U.S.A.

Dear Dr. Einarsson:

Please extend to the Astronomical Society of the Pacific my sincere thanks for the Bruce Medal. I feel greatly honored to be among the distinguished names associated with this award. Also, I look back with pleasant thoughts to the festive gathering that evening. It was a fine opportunity to renew old acquaintances and make new friends. I will carry it among my cherished memories.

By your letter of 26th June you mention that the Society would pick up certain other expenses. I have estimated these as follows.

Hotel, 3 nights	\$30
Helicopter, 2 flights	20
Food, taxi, etc.	10
Total	<u>\$60</u>

If the Society still has some money after passing out that big disk of engraved gold, and you believe the above appropriate; perhaps you could have a check made out for this sum to the Research Corporation and send it to them, addressed

405 Lexington Avenue  
New York 17, New York

Next year I expect to make another trip to U.S.A. a bit later in the year. Perhaps we can get together again and I will discuss the results of my studies here.

Thanking you for your kind hospitality during the afternoon,

I am

Sincerely yours,

*Grote Reber*
