Mr. I.M. Levitt
Fels Planetarium
Franklin Institute
Philadelphia 3, Pa.

Dear Mr. Levitt:

Thank you for your letter of October 31 which recently arrived here.

A few months ago I joined the staff of the National Bureau of Standards to undertake an enlarged program on astronomical radio.

Enclosed are some photographs with markings which I believe are self explanatory. I hope these are what you wish. When your article is published I would appreciate receiving a few reprints.

Very truly yours,

Grote Reber
