UNIVERSITY GROUNDS,  
SYDNEY, N.S.W.

3rd March, 1960

Mr. Grote Reber,  
"Lonsdale",  
KEMPTON, TAS.

Dear Grote,

We are glad to hear that you will be calling in at the lab. before you return to the U.S.A., but I unfortunately will be away on leave for that particular week. You will probably find Lindsay McCready in my room, however, and Dr. Pawsey, of course, will be glad to see you.

The boys will be very pleased indeed to have a talk with you, and this has been fixed for the afternoon of Monday, 14th March, at 3.45 p.m. Dr. Pawsey would like you to broaden your talk a little to bring us up to date on the results of all your measurements down in Tasmania, and to include, of course, the results of your recent visit to Macquarie Island.

With kind regards and best wishes,

Yours sincerely,

A handwritten signature in dark ink, appearing to read 'A. J. Higgs'.
