ABC ANZAAS PROGRAMMES

RECORDING STUDIO: Rooms 343 and 341, Top (3rd)  
floor Arts Building.

PHONE: University - 27741, ext 379

16 August, 1965.

Dear Dr. Reber

We are most interested in your papers about  
*.Galactic + cosmic radio astronomy... on 16 + 17 August....*  
and we would be most grateful if you would grant us  
the privilege of interviewing you for ABC National  
Radio.

We would be pleased if you could visit us at  
our special recording studio for this purpose  
at your earliest convenience.

All being well, we should be able to record  
your item immediately, and you should be free  
within half an hour of your arrival. If you are  
unable to come in today, could you please ring us  
at our studio number given above. If you cannot  
contact us there, you may be able to get us, or at  
least leave a message about your availability and  
whereabouts via David Wilson or Brian King at the  
ABC Talks Department (Hobart 27821, ext. 280, 281,  
284), but we hope that you will have no difficulty,  
since we are anxious to interview you as soon as  
possible. Naturally we shall not broadcast any item  
until after your paper has been delivered.

I am writing to you as co-ordinator of the whole  
ABC coverage of ANZAAS, and perhaps I should say  
that it may be one of my colleagues who will interview  
you.

Yours sincerely,

*Peter Pockley*

DR. PETER POCKLEY  
Science Programmes Organiser.

*P.S. I notice that you are very busy on Monday, and since  
David Wilson has already recorded a piece from you for immediate  
broadcast tonight, these other interviews can wait a day or two. Perhaps  
you might like to consider Tuesday afternoon?*
