Dear Dr. Van Hemelrijck:

Recently I returned to Maui from Australia and found your letter of the 27th July awaiting me. Thank you very much. The picture shows a very neat installation which is an auspicious sign of worthwhile results. I will be pleased to be kept on your mailing list for monthly data sheets.

The results of my two years experiments in Australia at low frequency will be published in the March 1958 issue of the Journal of Geophysical Research. I'll send to you a reprint in due time.

Yours faithfully,

Grote Reber
