

THE OBSERVATORY
OF THE
UNIVERSITY OF MICHIGAN
ANN ARBOR, MICHIGAN

July 24, 1951

Mr. Grote Reber
Box 4868
Cleveland Park Station
Washington, D. C.

Dear Mr. Reber:

We are instituting a graduate course in Radio Astronomy next September, and, as with much of the important literature in this field, your publications in the "Proceedings of the Institute of Radio Engineers," "Communications," "Electronic Industries," and "Radio News" -- on instruments as well as astronomical researches -- are not permanently available to us in our own Observatory library. I should like to request two reprints of each of your papers in these journals, to be incorporated in our ready-reference folders. They will be most helpful to us and greatly appreciated.

Sincerely yours,

Stanley P. Wyatt, Jr.

Stanley P. Wyatt, Jr.
Instructor in Astronomy
