

12th May, 1967.

Dr. E. G. Bowen,  
Chief,  
Division of Radiophysics,  
C.S.I.R.O.,  
University Grounds,  
~~CHIFFERBACH~~

Dear Tuffy,

My radio astronomy experiments have been completed in a successful manner. The results have gone to the printer. I am leaving on Sunday and will be in New York City at dawn Monday morning. My address will be -

Grete Haber,  
Research Corporation,  
405 Lexington Ave.,  
New York, New York,  
U.S.A., 10017.

During the past several years it has been pleasant and worthwhile being an Honorary Research Fellow of the C.S.I.R.O. I much appreciate your setting up this post as it gave me status not otherwise possible. The few contacts I've had with your organization in Sydney have been useful. I particularly wish to comment on the congenial and productive atmosphere provided by Dr. Donald Martin, the Officer-in-Charge of local establishment. This has been conducive to my success and effective in prolonging my visit.

When reprints are available, you will receive a copy of my finding. Again, thanks for your efforts on my behalf. With kind personal regards, I am,

Sincerely yours,

Grete Haber.
