U.S.

Dear Derek,

We were very pleased to hear that you will be visiting Canada soon and look forward to seeing you then. We could probably provide both you and Bev Harris with a bed if you come to Kingston, as Michael Kesteven now has an apartment next to ours.

Unfortunately while you are in Canada I shall be spending some time in the U.S.! I am observing on the 300-foot from Feb 9th to Mar 4th, and will actually be at Green Bank from Feb 13th to Feb 23rd. (My program is now so organised that my presence is only marginally significant - this is the era of computerised telescopes at its best). However, we hope you might be able to spend some time with us while I am observing from Kingston, either before the 13th or after the 23rd. It is a pity we always seem to be just missing each other and it would be good to set it to rights this time.

If these dates would make it impossible for you, any chance you might go to ARO from Texas via West Virginia?

Yours,

AHB:jp
