

9th January 1984

Dear President Martin:

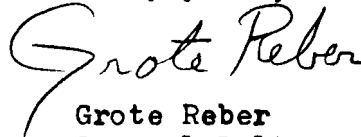

The medallion and citation for IIT Hall of Fame posted on 23/12/83 arrived promptly on 3/1/84 in good order. Thank you very much. I'm most appreciative of your and IIT confidence in my activities.

The citation is a bit surprising. It is first I've heard that National Air and Space Museum has shown interest in my researches.

Currently, I have no plans to be in States during visible future. However, when an opportunity presents itself, I'll make an appointment with you to visit your office in person, perhaps next year.

Thanking you again for the honors, I am.

Sincerely yours,

Grote Reber
