Dear Mr. Jones,

In accordance with your letter of 6/10/64, I have been expecting to see or hear from you. If you still expect to carry out the studies described I would like to assist in a minor way. I propose to appear at West Point a couple of days before you finish to see what you have found. Then I will accompany you to Rocky Cape and help you get started there. Probably I will have to return to Hobart thereafter, but hope to return to Rocky Cape just before you finish. I'm as curious as you are about these things. Please let me know your plans as soon as possible.

Best regards,

Graze Baker.
