Att: Personnel Dept.

Dear Sirs:

During the early 1930s, A.C. Beck was contemporary of Karl Jansky at Holmdel Laboratories. Last time I saw Beck was at NRAO, Green Bank, West Virginia during summer of 1960. I understand Beck has retired and is living in Florida. If possible, please send his address to me because I would like to write to him.

Very truly yours,

Grote Reber
