Mr. Grote Reber
National Observatory
Green Bank, West Virginia

Dear Mr. Reber:

We should like to ask your cooperation in rounding up photographs to illustrate a new senior high school textbook, MODERN SPACE SCIENCE by C. Huffer and F. E. Trinklein. The publisher is Holt, Rinehart and Winston, Inc.

One picture the authors especially want to include would show the first telescope you set up in Wheaton in 1937.

We should indeed be grateful for any suitable glossy photo print you can make available and assure you it will be properly acknowledged. In addition, we will be glad to pay any costs which may be involved.

Since we have an extremely early deadline, may we look forward to the pleasure of hearing from you very soon?

Sincerely yours,

Frances L. Orkin
