

RFD Stanfordville, N.Y.

November 8, 1947

Mr. Grote Reber  
National Bureau of Standards  
Washington 25, D.C.

Personal

Dear Mr. Reber:

Many thanks for the quick reply to my queries, and for the reprints. Seems to me the award Southworth got a few years ago should have gone to Jansky and you.

The piece appears in the January issue, which is on the stands in December. So far as I could tell from proofs, the pictures reproduced very well. Please tell John Van Camp.

*Popular Science Monthly 1/48*

Am unable to look at the stars without visualizing your mirror and straining for the hiss from the direction of Sag. Haven't seen them for a week, however; hope the Sterling weather is better/<sup>than</sup> the Stanfordville.

*Regards,*

*Herb Jansky*
