

JAMES G. BIDDLE CO.

ELECTRICAL INSTRUMENTS
SCIENTIFIC APPARATUS
1211-13 ARCH STREET
PHILADELPHIA, U. S. A.

April 4th, 1939.

Mr. Grote Reber,
212 W. Seminary Avenue,
Wheaton, Illinois.

Dear Sir:

In reply to your letter of March 31st, we regret to advise you that we are not in a position to supply you with a Recorder.

It is not practicable to supply the "works" of the Recording "Megger" Testing Set, because the moving element is a crossed-coil ohmmeter and so is not adapted to the direct measurement of small currents.

If at any time you find yourselves in need of any of our instrument and apparatus specialties, listed in Bulletin 1525, a copy of which we sent you under date of March 27th, we will be glad to hear from you regarding them.

Very truly yours,

J A M E S G . B I D D L E C O .

Wm B B Reagrite
