

123 WOODLAND AVE., WESTWOOD, N. J.

September 24, 1958

Mr. Grote Reber
c/o General Delivery
Wailuku, Maui
Hawaii

Dear Mr. Reber:

Thank you for your letter of the 10th. We have not as yet received your samples, but they will likely arrive in the near future.

The 2% accuracy refers to the Carbon-14 content and results in an uncertainty of about ± 100 years on a near modern sample.

Due to an oversight you were quoted a backlog extending through July 1958. Our present backlog extends through October 1958. We will forward the results of our analysis as soon as possible after we receive the samples.

Sincerely yours,

ISOTOPES, INC.
