Dr. Grote Reber  
National Radio Astronomy Observatory  
P. O. Box 2  
Greenbank, West Virginia

Dear Dr. Reber:

We are in the process of publishing a high school astronomy textbook called MODERN SPACE SCIENCE by F. E. Trinklein and Charles Huffer. We would like very much to include in this book an illustration of the radio telescope built by you in 1937.

After trying several sources without success, it was suggested to me by Mr. Shawcross of Sky and Telescope that I write to you directly and ask if you could help us with such a photo.

We would be most grateful to you if you could help us with this and would, of course, give you credit in the book.

Very truly yours,

Jean E. Samson  
Science Editor.
