

9th March 1995

Greetings Ken:

Your FAX of 6th March 95 arrived at 16:13 same day. It was labor day here. Same first monday in autumn as labor day back there on first monday in September.

There is something wrong, having to go to Chicago to get to Oklahoma City. There must be some service from west, Los Angeles, San Francisco, Phoenix, etc. Try to route me as such. There has been another change. Some friends at Holland, Michigan have invited me to visit them for a few days. Holland is served by airport at Grand Rapids. Route me Oklahoma City to Grand Rapids on 24/5/95. I'll stay with them to 31st. By that time I should have worn out my welcome.

There is an airport about an hours drive north of Green Bank. I've forgotten name of town. I think it is served from Pittsburgh. Route me from Grand Rapids on 31/5/95 via Pittsburgh to town X.

I propose to stay at Green Bank to 5/7/95. This should allow plenty of time to examine things at liesure. If desired, I can give my speech "The Big-Bang is Bunk" at Charlottessville, and such other places as may be interested. Make inquiry. On 5/7/95 route me back to Grand Rapids for a week. Then on 11/7/95 route me to Chicago, O'Hare Airport. I'll be there two full days. On 14/7/95 I'll start trip back to Hobart. Hope I'm not too exhausted by time I arrive.

Those Minuteman Missiles have been paid for once. It's a lot of gall being asked to pay for them again. I've been getting same kind of runaround from other sources. These fellows are just a lot of bureaucrats making fat jobs for themselves. The whole mess needs to be cleaned up. Who is leading contender for republican nomination for President next year? See him. Don't pull the punches. When I'm at Green Bank, I intend to press the matter.
