Att: Tony Clark

Dear Mr. Clark:

After your fellows left yesterday I stumbled on four small pieces which should go in large dark green case with hinged lid. I screwed a wire device onto under side of cover. A heavy white cylindrical object is diagonal across botton of case. This should identify case.

I'll be in Derwent Park on 14th about 10 am. Please have above case placed out front. It will take me only five minutes to include four objects. I am,

Yours faithfully,
