Dear Dr. Salisbury:

Enclosed is a reprint of a short note I published concerning the abnormal solar radiation which occurred while you were here two months ago.

I had hoped to get in touch with you before this. In any case, I am wondering if you will be in Cedar Rapids on the 18th and if so, will it be convenient for me to pay you a visit? I would like to see your equipment, especially if it is functioning; and discuss some of the other matters you brought up when you were here.

If the above date is not satisfactory please suggest an alternate either earlier or later, excluding the 27th.

Yours very truly,

Grote Reber
