

Parkes, NSW. 23.4.69.

Greetings from PKS!

Sandscene
International

Seems ironic observing 4c sources at Parkes, but suits me just fine! Flew

via L.A., Honolulu & Fiji. It's good to see some greenery again & some normal people.

Have 7 nights (~100h) observing with JGB. Expect to return to Texas via UK at end of July. Might come via Kingston if you will be around (my brother's going to

around (my brother's going to

John Sands Pty. Ltd., Printers, Australia

N129—AUSTRALIAN NATIONAL RADIO ASTRONOMY OBSERVATORY
C.S.I.R.O. PARKES, N.S.W.

This time exposure illustrates the full range of movements of the Parkes radio telescope as the 210-ft. diameter paraboloid is moved from its fully tilted position through 60° to the zenith, rotated 180° in azimuth, then dipped in the opposite direction.

Toronto for 3 yrs). Regards - Derek
