Dear Ken,

Your package of literature on Western Australia and Northern Territory arrived in good condition on 6th December. The roll of maps came two weeks later. Thanks very much. I've now had an opportunity to examine the brochures and maps in some detail. There appear to be several places where the hill country descends into the coastal plains to north and west which are worth investigating. Before leaving for U.S.A. in a few months I will contact you again on these matters. Thanks for your past assistance and your kind hospitality.

Please remember me to Rosemary, Katrina and Ian.

Best regards,

Grote Reber.
