

12th December 1957

Observatoire Royal
de Belgique

Uccle, Belgium

Att: Director

Gentlemen:

Recently copies of your solar observations at 169mc for April, May, June and July 1957 arrived here. Thank you very much. Some time ago the October 1956 data was received.

I would appreciate being kept on your mailing list for future copies of your results. Also please send to me your observations for November, December 1956 plus January, February and March 1957 if any copies are still available.

I expect to be here for the next couple of years. My correct address is as follows.

Grote Reber
General Delivery
Wailuku, Maui
Hawaii

Please change your mailing list accordingly. The results of my past couple of years experiments will appear in an early issue of the Journal of Geophysical Research, under the title of "Between the Atmospherics". When some reprints are available, I'll see that you get one.

Very truly yours,

Grote Reber
