

AUSTRALIAN INSTITUTE OF ABORIGINAL STUDIES

Box 553 P.O.
CANBERRA CITY. A.C.T.

Please quote ref. 65/113

22nd December, 1965.

Mr. G. Reber
Division of Radio Physics
C.S.I.R.O.
HOBART. TAS.

Dear Mr. Reber,

In order to provide a regular avenue for the publication of radiocarbon dates, the Institute intends that each of its Newsletters should contain a list of dates obtained during the previous six months and also of unpublished earlier dates. In Newsletter No. 7 to be printed in January 1966, we should like to include dates for 1965, and earlier.

Each entry should provide brief but essential information on sample tests, as follows:

1. Number of samples
2. Nature of samples
3. Cultural association of samples
4. Significance of samples
5. Date of samples
6. Laboratory in which tested.

If you have information to send we should appreciate an early reply.

Yours sincerely,

(F. D. McCarthy)
Principal
