Miss. Sturla Einarsson, Secretary
Leuschner Observatory
University of California
Berkeley 4, California
U. S. A.

Dear Miss. Einarsson:

Thank you for your good letter of the 22nd November. I am surprised and indeed flattered at being chosen to receive the Catherine Wolfe Bruce Gold Medal (1962). It is a pleasure and an honor for me to accept this medal and I look forward to receiving it in due time.

Apparently no speech is part of the ceremony. In a year or so, I should have new and interesting results secured by apparatus now under construction. When these results are in hand, I will be returning to America and perhaps may have the honor of discussing my latest findings before the Society.

I am,

Sincerely yours,

Grote Reber
