

Dear Mr Reber,

I am teaching science at Bothwell District High School and at present am doing a unit on Astronomy with the grade 7/8s. (to coincide with Halley's Comet) I was wondering if you would be able to come ~~at~~ and speak to the class sometime soon after Easter. It would be wonderful to hear from a real astronomer.

If you could come, would you please contact me at the school either by coming in or ringing - ph. 595518
Thank you very much

Yours sincerely

Jennifer Yearley

7/4/86

Gave talk 1130 to 1215. The kids seemed interested and asked good questions. They gave me a Halley's Comet Lapel button from Bothwell District High School.
