6th Feb. '94.

Dear Mary and Alan,

I don't have anything new
~~to say~~, except that the return
journey was uneventful (a
mere 4-hr delay in B.A. departure
from Dulles) — but somehow

it still seems right to follow the old custom & put it in writing. So, thank you for your spectacularly generous hospitality, and an extremely valuable short course on AIPS, quite apart from demonstrations of driving up my hills and an introduction to the Virginia countryside. It really was a very useful 10 days for me, and

I hope to use it for the rest of the term so as to impress it on the ageing memory.

Best wishes to you both,
& I hope the hospital reorganization turns out better than expected

Pete
