Mr. Grote Reber
Research Corporation
405 Lexington Avenue
New York 17, New York

Dear Mr. Reber:

Thank you for your letter of October 31, 1960. I would be most delighted to meet you. I have been anxious to make your personal acquaintance; however, our paths do not seem to have crossed as yet.

If you could arrange to visit our laboratory in San Diego for a day or two, I can easily get you out to Clark Lake since I commute almost daily. We have a colloquium series here at the laboratory and an honorarium policy. If you would be willing to give a talk concerning your work in radio astronomy, we could arrange an honorarium of \$100.00 to defray the expenses of your trip to San Diego.

Since we are both working in the low frequency end of the radio astronomy spectrum, I am looking forward to an opportunity to discuss our mutual interests.

Sincerely,

W. C. Erickson
Sr. Staff Scientist
