Dear Alan -

Enclosed please find my contributions for the workshop proceedings. I have not exceeded my total allotted length, but have redistributed it. Also enclosed is a 1 page non-scheduled item on the Tolly Green jet which I hope you see fit to use.

There are continuous tone photographs which should be appropriately handled.

I have sent 1 original + 1 copy of everything.

Thanks again for organizing the workshop. It rates at or near the top of my overall scientific experiences, because of all the interaction.

Good luck,

Larry

Dear ALAN:

Enclosed are 2 of the 3 papers for the Jet Workshop. The 3rd paper, on the e-beam experiment, is delayed at Sandia Labs. They insist on an internal review & clearance (so the Russians won't steal our secrets on Jets!). This is just a formality, but it will slow us down a bit. We hope to send it out Express Mail to you by Aug 31. It may be delayed a few days after the Sep 3 deadline, however. Your patience on this matter would be appreciated.

Thanks for organizing a great Workshop!

Best wishes,

Jack

Dear Alan:

I am enclosing my contributions to the workshop proceedings, which include an abstract of my talk on force-free equilibria (plus responses to questions) and a short paper on magnetic energy dissipation in jets.

In addition, I am sending the edited version of the review talk which, I hope, still retains some of the original informal flavor. Please let me know if you wish me to also go over the discussion portion of the talk.

I would like to take this opportunity to thank you once again for the very stimulating and enjoyable workshop that you organized.

With best regards,

Arieh König
