Greetings Ken:

Your FAX of 3rd arrived promptly on 4th. We are 15 hours ahead of you. The letter copy arrived by mail on 11th. Thanks.

I've been remiss about answering you. We have been having spring here. My large place requires a lot of weed pulling and hedge trimming. I'm pleased everything arrived OK.

Yes, I've decided you are rite. I should stay more than a week to do the job properly. Perhaps two, or three weeks would be more suitable. We can decide that in due course. I have some lists of box contents. However, we better look in each box. Probably only ten percent of material is suitable for display. There is a lot of paper work only suitable for file. Also I've included some of my amateur radio W9GFZ apparatus. This was antecedent to my activity in radio astronomy. There is a direct connection.

On my way east next spring, I'd like to make some stops. When this has been decided, we can organize the tickets. No rush.

To change subject. Please make some fone calls. Try to locate who is in charge of, and where are the Intercontinental Ballistic Missiles (ICBM)? I'd like a few; take explosive head off; and add container of liquid hydrogen. We should get these for a cheap price. See what you can turn up. Best wishes,

C. U. Anon.
