Mr. Grote Reber  
U.S. Bureau of Standards  
Washington, D.C.

Dear Mr. Reber:

*Popular Science  
Monthly 1/48*

In case you heard that I won the AAAS-Westinghouse science writing honorable mention, I hope you also heard what story it was for. For if the story was good, it was you that made it so.

I talked with Dr. Condon briefly last Thursday -- but was unable to get out to the Bureau -- and he was very enthusiastic about your work.

Hope everything is going well and that if there are developments that might merit another article, you will let me know.

Regards,

*Herbert Yahraes*
