We are preparing a book entitled A SOURCE BOOK OF ASTRONOMY AND ASTROPHYSICS, 1900-1975 for publication by Harvard University Press, a non-profit publisher. It will be included in the distinguished Source Books in the History of the Sciences series. An edition of 3500 copies, clothbound, is planned for 1977. It will be about 550 pages in length, and it will be priced at about \$35.

We request permission to reprint, possibly in abridged form, the following article(s) with illustrations where applicable. When the copyright is held by the journal, we are asking for permission from the publisher, but we would like your approval.
