

25th March 1963

Dr. Geoffrey Keller
National Science Foundation
Washington 25, D.C., U.S.A.

Dear Dr. Keller:

Probably you will remember the brief conversation we had in your office last year about radio telescopes. Dr. Mulders was also present.

In accordance with your suggestion I drew up a formal proposal entitled "Steerable Parabolic Radio Telescopes" including three drawings. Twenty copies were sent to you with a covering letter dated 26/9/62.

So far, I have not heard anything more. Please look into the matter and let me know the present situation.

Best regards,

Grote Reber
