

25/1/78

Prof. Langji

Your copy of the 12th and enclosures is at hand. Your discussion about my work is satisfactory. However, I suggest a period at end of line 18; and delete lines 19+20.

I am quite proud of my article in Journal Franklin Institute, January 1968, pages 1-12. You may wish to include it in references plus a few words in text.

Best wishes,
