CEDAR RAPIDS, IOWA, U. S. A.

18 August 1947

Mr. Grote Reber  
212 W. Seminary Avenue  
Wheaton, Illinois

Dear Mr. Reber:

We have all been on vacation here and, consequently, my reply to your letter of July 18th is a little late.

Personally I would like to carry on the sun measurements at 24,000 mc. that you mentioned. Salisbury is not here now so we can't decide anything until he comes back.

We have a contract with the Navy for some work on microwave noise measurements and we might be able to include this work on that contract. At any rate, I will propose this group of measurements to both Salisbury and the Navy and will let you know the outcome as soon as possible.

Very truly yours,

COLLINS RADIO COMPANY
