Mr. Grote Reber  
National Radio Astronomy Observatory  
P. O. Box 2  
Green Bank, West Virginia

Dear Mr. Reber:

*Copy to G.B.*  
Under a separate cover, I am sending you a complimentary copy of our recently published high school textbook MODERN SPACE SCIENCE, by Mr. F. E. Trinklein and Dr. C.M. Huffer. This is in grateful appreciation for the assistance you rendered the authors and me by supplying us with a glossy print and the permission to reproduce Fig. 20-9 on page 413. Also, please note the reference to some of your work on page 412.

If you should have the opportunity to examine MODERN SPACE SCIENCE thoroughly, we would appreciate any comments, suggestions, corrections, and/or criticisms that you would care to make. Since this is the first textbook of its kind in the high school science field, we depend on such remarks to help guide us in making what we believe to be a good book an even better one.

Thank you again for your kind cooperation in this endeavor.

Sincerely yours,

*Richard G. Young*
