

22nd June, 1965.

Mr. Rhys Jones,
Department of Anthropology,
University of Sydney,
SYDNEY...N.S.W.

Dear Rhys,

Recently I have secured two more carbon dates.

Site 2, Age 5235 ± 280 years B.P. (GX0419). Please insert this in the manuscript.

Site 9, Age 2600 ± 120 years B.P. (GX0420). Please use this in place of I-321 date.

Site 10 has a typographical error. Change 235 to 2350.

No information has come from New Zealand. I am writing a prompting letter today.

Perhaps a paragraph should be inserted describing other sites at which bad carbon dates were secured. This may be embarrassing to Isotopes. However the subject shall be aired for all to see. C-14 dates have no religious sanctity.

Where does the publication of my manuscript now stand?

Best regards,

Grote Reber.

GR:JEG
