

14th October, 1966.

Dr. Leland J. Haworth,  
Director,  
National Science Foundation,  
WASHINGTON, D.C., U.S.A., 20550.

Dear Dr. Haworth,

Enclosed are copies of two letters. Unlike most of your correspondents, I am not looking for money; merely information. This should be easy. No answers or acknowledgments have come. Perhaps Dr. Hurlburt is no longer on your staff and my original letters have been filed away. Please look into this matter personally and let me know the results of your efforts along with the information I desire.

Yours faithfully,

Grata Reber.
