Dear Grote Reber

Thank you for your enquiry re the United Airlines flights. The people in USA advise you correctly in that the AIRPASS is cheaper than ordinary fares. For your travel within USA it would take 7 coupons which would cost US609.00 (during the month of May) and assuming you will have a United Airlines ticket across the Pacific to and from Australia.

The cost in Australian dollars is \$825.00 for the entire 7 legs of the trip. Just the Chicago Pittsburgh and return alone would cost you USA\$228.00 each way i.e. AU\$309.00 each way. There are other special apex fares which are cheaper but very restrictive and must be booked and ticketed immediately etc.

Before we can make a booking we need to know which kind of fare you would like and if the Pass is suitable we can then book this in the correct booking codes etc.

Please advise by return, also we need to cross reference your United International ticket with the Air Pass as well as Passport details which you will need to provide.

We look forward to hearing from you.

Yours sincerely,
