January 23, 1963

Dear Mr. Reber:

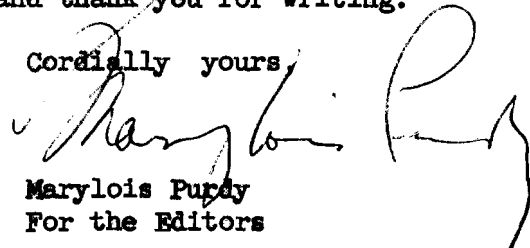

In Mr. Alexander's temporary absence I have been asked to answer your note of December 21.

We were indeed glad to know of your happy reaction to the Radio astronomy report and to the mention made of your own distinct contribution.

In view of that, I wish it were possible for us to send you the several prints of the published picture of your telescope. This picture is the property of World Wide Photos, located at 50 Rockefeller Plaza, New York 20, New York and you may obtain prints at a nominal sum through mail order.

We are sorry we could not arrange this for you, but we very much appreciated hearing from you and thank you for writing.

Cordially yours,

Marylois Purdy
