January 16, 1959.

Mr. Grote Reber,
National Radio Astronomy Observatory,
Greenbank, West Virginia.

Dear Mr. Reber:

Greetings! I trust all goes well with you.

I am putting together for the Harvard University Press a second Source Book of Astronomy for the interval 1900-1950. Among the 70 articles in this survey I should like to include, with your permission, your paper from the Astrophysical Journal, 91, 621-624 (1940). It certainly merits inclusion in this collection of "little classics". The Astrophysical Journal has already given me its permission to use the paper.

Sincerely yours,

Harlow Shapley
